For Local travel the firm has to provide rate of 1hour/10km in the financial bid. The firm will get minimum 5 hours/50km for per day local travel visit or if more than 5 hour/50km in a day than the increased hours/km will also be paid. In the financial bid the calculation of lowest bid will be calculated on the rates provided for 1hour/10km only

If on check, there are some discrepancies, the following procedure shall be followed: - When there is a difference between the rate quoted by the tenderer in words and figures, the lower of the two rates shall be taken as valid and correct rate. When the rate quoted by the contractor in figures and words tallies but the amount is not worked out correctly, the rate quoted by the contractor shall be taken as correct and not the amount worked out.

C) Correction of Arithmetic Errors: Provided that a financial bid is substantially responsive, the procuring Entity will correct arithmetical errors during evaluation of Financial Bids on the following basis:

- (i) If there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- (ii) If there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to clause (i) and (ii) above.

If the Bidder that submitted the lowest evaluated bid does not accept the correction of errors, its Bid shall be disqualified and its Bid Security shall be forfeited or its Bid Securing Declaration shall be executed.
