Current scenario

- A woman hired by Women & Child deptt. but works for Medical & health also
- Fixed Rs. 1850 from WCD and M&H pays incentives
- Currently around 48000+ ASHA Sahyogini are working in the State.
- They are given a small village or a cluster of houses for ensuring better awareness about health, RCH activities and family welfare services in the village.

Why ASHA Soft?

- To ensure timely and transparent online payment to ASHAs
- To improve the system for effective monitoring their performance on 26 parameters

Strengths of ASHA Soft

- **No capital investment** in any manner and at any level (Existing PCs are used)
- Existing information Assistants/Computer operators used – **No new HR hired**
- **Existing SMS Gateway** is used...better used
- **Existing banker** is our partner
- Utility of PCTS/ MCTS, which in turn strengthens entry regime
- No need to compile information manually
- **Informed decisions** are encouraged

ASHA Soft integrated with **PCTS**

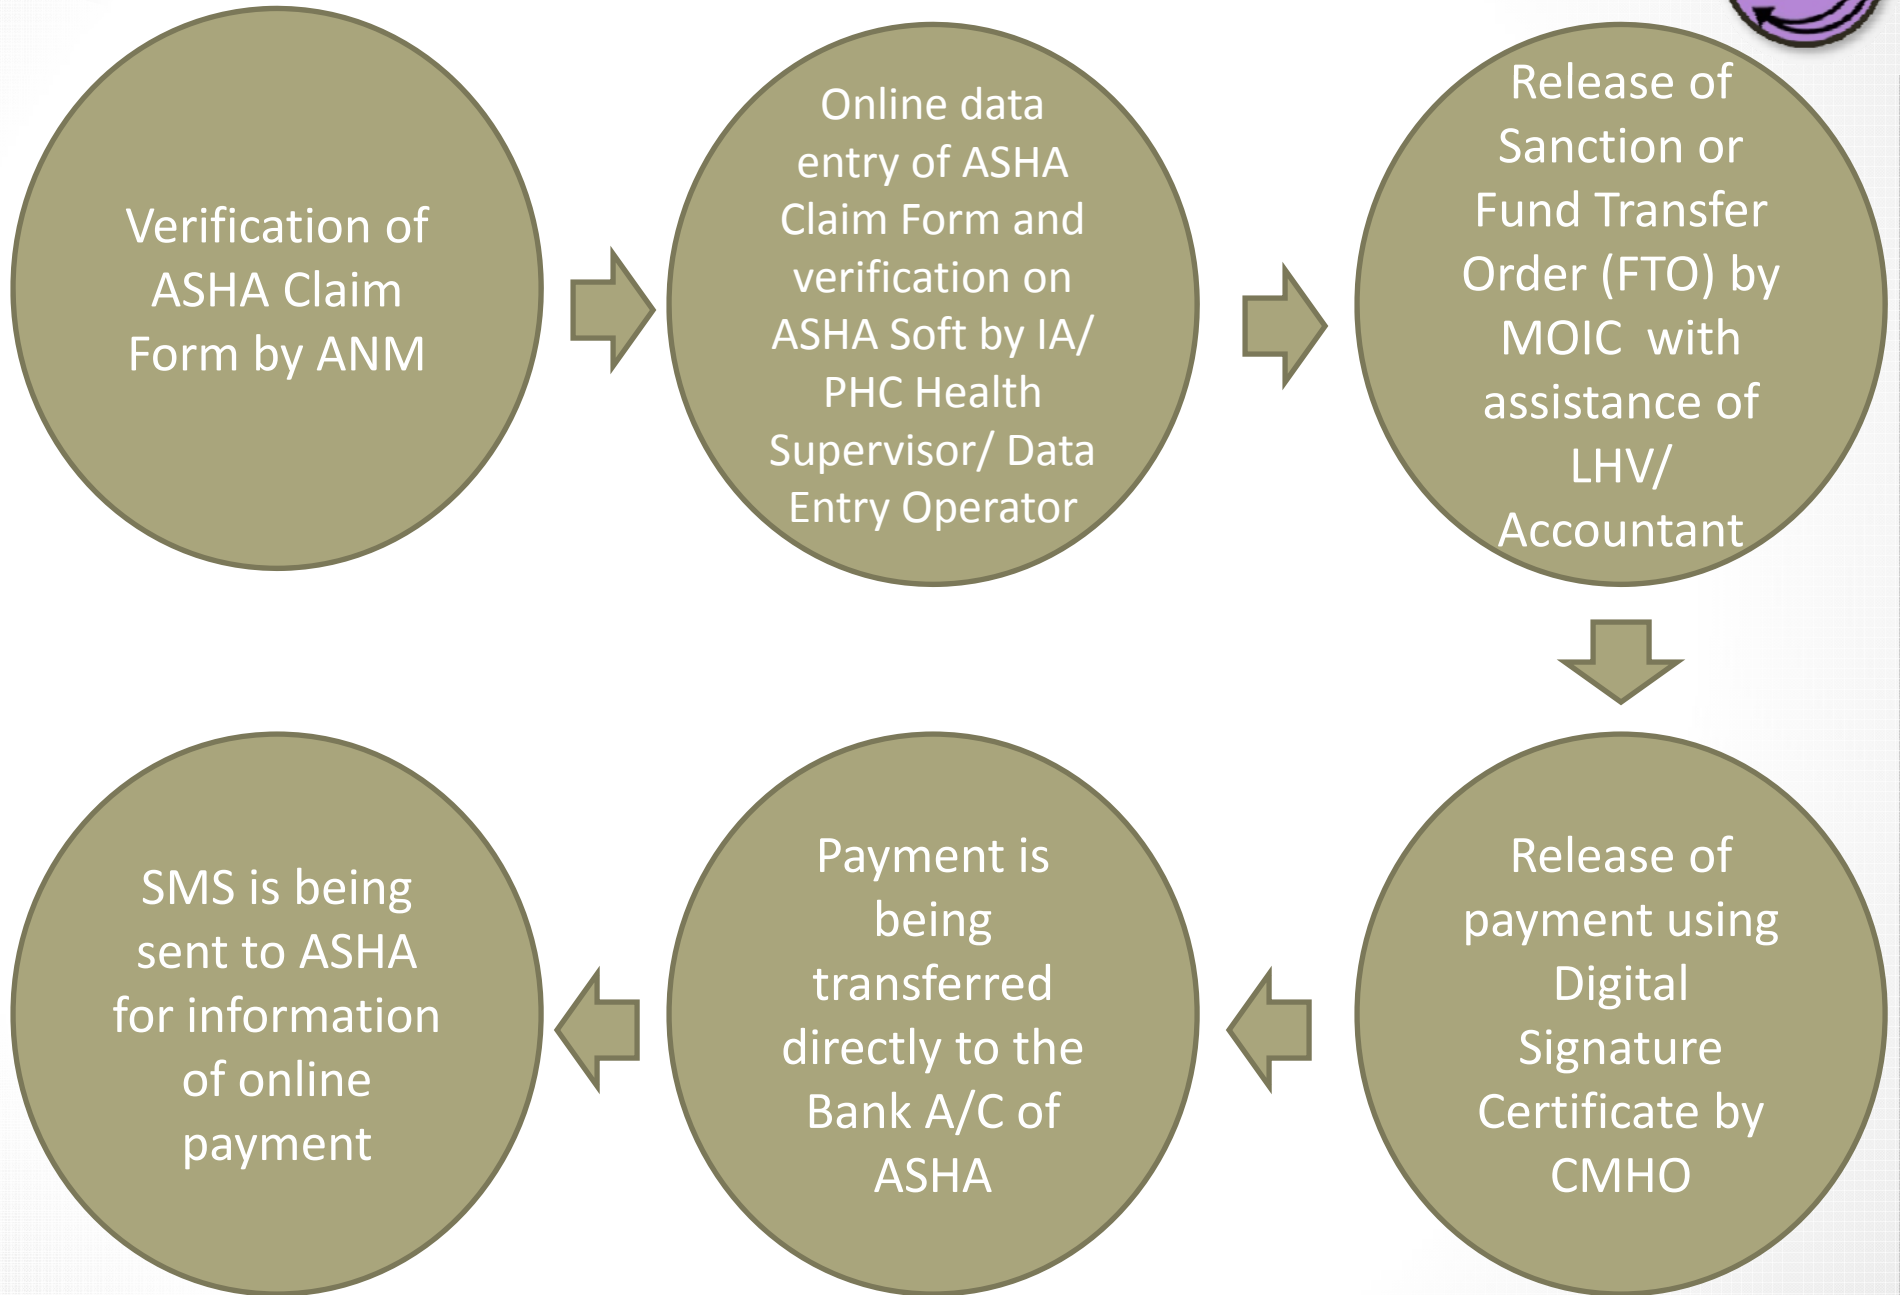

**For name based reporting and verification of
beneficiary**

What is ASHA Soft?

- It is a web-based software for online payment to their bank account and monitoring the performance.
 - It captures beneficiaries details of services given by ASHA to the community.
 - It generates various reports to monitor the progress of the programme.
- It is developed by the NIC-Rajasthan State Unit and for online payment, Bank of Baroda is our partner

आशा के संग संग

What is ASHA-Soft?

It is an online system which facilitates the department:

- To capture beneficiary wise details of services given by ASHA to the community.
- Online payment of ASHA to their bank accounts.
- Generate various reports to monitor the progress of the programme.

ASHA (Accredited Social Health Activist) Programme

Since inception of NRHM in 2005, ASHA (known as ASHA Sahyogini in Rajasthan) has played an important and critical role in implementation of health activities under NRHM. The ASHA programme was introduced as a key component of the community process intervention and now it has emerged as the largest community health worker programme in the world and is considered a critical contribution to enabling people's participation in health.

ASHA is a community level worker whose role is to function as a health care facilitator, a service provider and to generate awareness on health issues. Besides delivering key services to maternal child health and family planning, she also renders important services under National Disease Control Programme.

ASHA's Work Profile:

- Ensuring 4 antenatal checkups, institutional delivery and post natal checkups.
- Identifying the risk and referring the mother & child to the health institution.
- Promoting attendance of children at anganwadi on village health and nutrition day for immunization.
- Holding monthly meetings of Village Health and Sanitation Committee.
- Counselling couples for family planning and distributing contraceptives to eligible couples.
- Counselling mothers for immunization of child at every household.
- Interface between community and health services to control diseases such as Malaria, T.B., Blindness etc.

Reporting

The most powerful tool

- After complication of the entries and verification for a given month, the reports can be seen.
- The programme generates the reports based on the fixed parameters in master and data entries done under various heads.
- System is providing many useful reports for State/district and blocks to making further plan of action.

Report which are available

- Non-functional ASHAs
- Cases where payments are extraordinarily high
- ASHAs who are performing good
- Supervisors with ASHAs with low performance
- PHC/CHC with lowest performing ASHAs
- Blocks with ASHAs who are not performing as per need in RCH activities
- Districts with lower ASHA performance indices
- Which activities are not generally taken up by the ASHAs
